

**My name is Anju, I'm 43 years old, working as a medical doctor. For the past 22 years, I have been involved in rescuing lost, abandoned, or abused dogs. I also bail dogs from the local council pound. (yes, we have to pay the council money to release caught dogs!!) I donate medical & food supply to shelters in Malaysia monthly. I had my own solo animal shelter in 2012-2014 where I took care of 20 dogs before I got them adopted. I do my best to raise awareness, prevent and report cruelty towards stray dogs in Malaysia. I would like to change the faith of stray dogs in this country as they deserve a better life here.**
